

# DESIGNING ROADWAY LIGHTING

## Special One-Day Seminar

April 16, 2007

Marriott Hotel, Ottawa, Ontario

---

TAC's new *Guide for the Design of Roadway Lighting*, published in 2006, provides guidance to practitioners planning and designing roadway lighting and related outdoor lighting systems. Now, in conjunction with the 2007 TAC Spring Meetings, we are pleased to be able to offer a special one-day seminar on the subject.

Led by Don McLean of DMD & Associates, principal author and developer of the Guide, participants will acquire a better understanding of all aspects of roadway lighting including vision fundamentals and design principles. Highlights will include:

- ◆ lighting theory
- ◆ obtrusive lighting
- ◆ the planning and design process
- ◆ system components and common elements
- ◆ standards and codes
- ◆ computer applications
- ◆ design and maintenance for:
  - roadways and interchanges, intersections, roundabouts, crosswalks, tunnels, toll plazas, off roadway facilities (parking lots, pathways, etc.), signs, streetscapes and work zone/ temporary lighting.

During the session, participants will explore the comprehensive Guide under the instruction of its author – an invaluable introduction for all practitioners, even those with in-depth knowledge of the subject. For those individuals still learning about this complex field, the session will be especially informative as they will benefit from Mr. McLean's renowned expertise in the subject matter, in addition to his first-hand familiarity with the new TAC Guide.

A special low rate for this one-day event is offered. TAC members registering by March 30 pay only \$249 (non-members pay \$349). As an added bonus, when ordering at the time of registration, one copy of the *Guide for the Design of Roadway Lighting* can be purchased at a reduced rate and will be delivered to you at the seminar. Please see the registration form for details. If you already have a copy of the Guide, you are strongly encouraged to bring it to the seminar.

Don't miss this great opportunity to learn more about the design of roadway lighting. Register now by completing the form on the reverse and returning it to the TAC Secretariat. We look forward to seeing you in April!

## COURSE REGISTRATION FORM

**PERSONAL INFORMATION** (Please list additional names on separate copies made from this registration form.)

Dr.     Mr.     Mrs.     Ms.

Name (please print) \_\_\_\_\_

Title \_\_\_\_\_

Organization \_\_\_\_\_

Street Address \_\_\_\_\_

City \_\_\_\_\_ Province \_\_\_\_\_ Postal Code \_\_\_\_\_

Tel. \_\_\_\_\_ Fax \_\_\_\_\_ Email \_\_\_\_\_

Special diet or accessibility requirements \_\_\_\_\_

**METHOD OF PAYMENT**

VISA     MasterCard     Cheque payable to Transportation Association of Canada (must be received before start date)

Card # \_\_\_\_\_ Exp. date (month/year) \_\_\_\_\_

Print name (as shown on card) \_\_\_\_\_

Authorized signature \_\_\_\_\_ TAC GST Registration No. 10790 0516 RT

### REGISTRATION INFORMATION

- 1) Lunch will be included with registration.
- 2) There will be no onsite registration. TAC reserves the right to reschedule or cancel the seminar if the minimum number of participants has not been reached. Early registration prevents a class from being cancelled due to low enrollment.
- 3) Full refunds are provided upon written request up to 20 working days prior to the course start date. Refunds of 50% are issued up to 10 working days prior to the start date. No refunds are issued within 10 working days of the start date; however, you may send a substitute. Please inform TAC who the substitute will be ahead of time.
- 4) You may only purchase one copy of the Guide at the reduced rate. The Guide will be delivered to you at the session (not shipped separately).
- 5) For information on TAC's privacy policy, visit [www.tac-atc.ca](http://www.tac-atc.ca) or contact [privacyofficer@tac-atc.ca](mailto:privacyofficer@tac-atc.ca).
